

AAVLD MEETING BUDDIES

You have decided to become a meeting buddy or you would like to have a meeting buddy. What now?

Shortly before the annual meeting you will receive an email with your buddy match. You will be expected to contact your buddy and determine when and where you will meet up after you arrive at the meeting.

If you are a new member and would like to have buddy you should:

- Attend the new member orientation with your buddy.
- Attend committee meetings and scientific sessions with your buddy.
- Eventually become a buddy for someone else.

If you are a current member and are willing to guide a buddy you should:

- Attend the new member orientation with your buddy.
- Help them with questions and networking at the meeting.
- Take your buddy to committee meetings and scientific sessions.

Please join our Facebook group “AAVLD Mentorship Program” for more information and updates!
