

PAST, PRESENT, FUTURE: FISH HEALTH LABORATORY TESTING

This symposium will feature a review of historic and current testing for aquatic species performed at AAVLD accredited laboratories, with a focus on testing that uses American Fisheries Society-Fish Health Section Blue Book procedures, which will progress into a discussion of the future of harmonized testing procedures for fish health laboratories in the United States and an assessment of whether there is a need for a new testing standard for aquatic species in the US. This session is free to attend but registration is required.

 **October 15, 2026**

 **1:00 - 4:00 pm**

Hosted by:

Dr. Eileen Henderson - UC Davis Weill, School of Veterinary Medicine

Dr. Nora Hickey - Washington State University, College of Veterinary Medicine
